

Amnerfield Miniature Railway • Amners Farm • Amners Farm Road • Burghfield • Reading • Berkshire • RG30 3UE

Thank you for your enquiry, for birthday parties we offer as follows:

Two and a half hours of train rides (pulled by either a steam, diesel or battery engine) over our three quarters of a mile scenic track. Please be advised that steam engines emit steam, smoke and hot ashes.

Use of our outdoor station facilities, complete with tables and chairs, perfect for your birthday tea; and a large grass area complete with picnic benches.

Please feel free to bring along your own birthday tea, our outdoor area is perfect for a barbeque, if you wish to bring one.

We can supply coffee, tea and squash if requested.

We recommend a maximum of twenty children per party; we can negotiate if you require more persons. We require children to be accompanied by an adult on the railway; if children under five wish to ride our train, an adult must ride with them.

Our parties consist of two hours of train rides followed by 45 minutes for the birthday tea, concluding with 15 minutes for photos and one final ride.

Our outdoor area is perfect for bouncy castles, if you require one, let us know and we can get you in contact with a local company. If you decide to book a bouncy castle, please make the vendor aware that they must supply a generator as there is no electric on the railway.

Due to availability, early booking is essential, we usually run on Sundays and Mondays (April to September) due to the great British weather! Let us know when the big day is and we can find the nearest available date. Let us know if you prefer mornings (10am-1pm) or afternoons (2pm-5pm).

Prices start from £130 for the full party package; we require a non-refundable £50 deposit, to be paid on confirmation of booking.

We'd like to let you know that we are a young couple, doing our life long hobby for you to enjoy, we do not gain profits from our parties; we put the full amount back into the railway so children can enjoy the age old magic of the railway for years to come. We both have full time day jobs so please accept our apologies for any delayed responses, feel free to leave us a message and we'll get back to you as soon as possible.

So that there are no surprises on the day, please be aware that all facilities on the railway are basic.

Hope this answers all your questions.

Kind regards

Sam and Becky
